

A JOURNEY TO THE SACRED SITES OF NEW MEXICO WITH JUNE CRANE & SAM TSO

June 3-7, 2010

We invite you on a trip of
both spiritual discovery
& adventure in the
“Land of Enchantment”.

Come be inspired by the
power & mystery present in
the "Four Corners" region,
land of fire & water.

June Crane & Sam Tso

New Mexico is the South-Eastern corner of what is known to the Indigenous Cultures as the "Four-Corner" region, or the spiritual boundaries of their ancestral home. Your journey will take you into these lands of fire & water.

You will hear the tales of Creation told by Sam Tso, Navajo healer & medicine man. Day trips will be led to mysterious Chaco Canyon, as well as to the Tsankawi cliff dwellings of the ancient Tewa people. Be inspired to your own inner journey of Creation as we adventure into Valles Caldara a 12 mile wide volcano crater surrounded by lush forest and as you soak in the healing waters of the local hot springs.

Your trip will be based out of a traditional Southwestern boutique motel within walking distance to the downtown square of beautiful Sante Fe. You will be offered ceremonies, teaching & story telling as you experience this once in a life time journey. Due to the intimate nature of the journey, limited to 12 participants, reserve early.
